

SUMMARY AND RECOMMENDATIONS

The 13 different genres that RSVP Movies can produce movies in are listed below. The subsequent project will be successful if the following conditions are met:

- The majority of drama films are created, then comedies and thrillers; hence, the next project must fall into one of these categories.
- The best option is a drama with a runtime of less than 100 minutes; it also received the most votes in the USA as of March 2017.
- The length of the Action genre during production must be long (112.88 min), followed by the Crime and Romance genres.
- Since 2017, there have been 3052 less films released. March had the release of the most films (824), while December saw the fewest (438).

The movies with the greatest ratings are Kirket and Love in Kilnerry and Dream Warrior.
